USING THE BETHANY CHRISTIAN SCHOOL APP TO GIVE PERMISSION FOR AN EVENT/EXCURSION

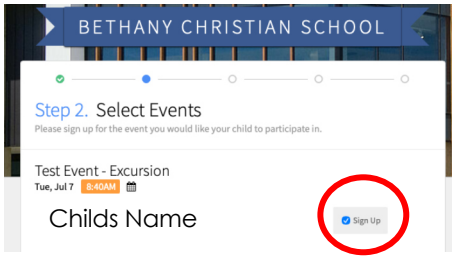

We use Veracross Event Registration Forms through the Bethany Christian School App to give digital permission for events and excursions.

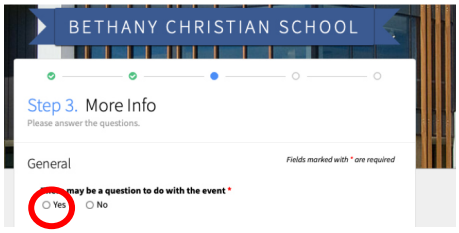

When your child is scheduled to go on an event or excursion you will receive a notification on the BCS App where you can give permission straight from your phone.

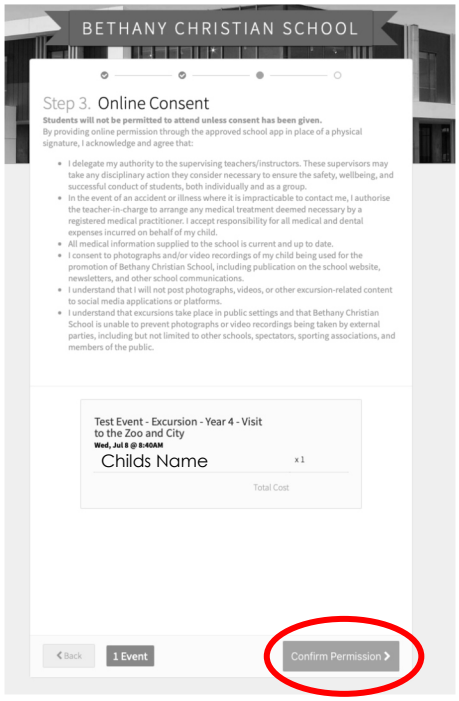

Note: Some events with more complex requirements (i.e. camp indemnity/medications) may also come via an email to parents.

If an event is cancelled, postponed or the event is running late you will receive messages to keep you informed via the App.

Please check that your notification settings are switched on in your phone and in the Bethany app settings (Bethany App > More > Settings and ensure that notifications are switched on)

STEP 1: Click notification link and sign in to Veracross
When an event has been created for your child to attend you will receive a notification in the Bethany ppp informing you. This link will take you to the Veracross Event Registration Form for the event.

STEP 2: Select Event
You will be taken to the event/events that your child has been invited to attend. Select the event/events you want to give permission for.

STEP 3: More information
For some Events you will be asked to provide more information. (i.e. sport uniform size or medical information)

STEP 4: Online Consent
Confirm permission for your child to attend the event.
